

1. Name of product and company

Date of issue

2021-02-24

Varukod (S):

Sopsäck

Manufacturer/Supplier

Trioworld Smålandsstenar AB
Box 143
S-333 23 Smålandsstenar

Trade name

Refuse Sacks, general

Denomination

Polyéthylène-film

Issued by

Kim Andersson, Kim.Andersson@Trioworld.com
+4637134628

2. Hazards identification

Chemical product hazardous to health

No

Inflammable product

Nej

Labelling sub-class(es)

No labeling required

Summery of risks

The product is not hazardous to health

3. Composition

A. Substances which give the product its health-risk properties, if any.

The article does not contain any substances of very high concern included on the candidate list in a concentration > 0,1%(w/w)

B. Other substances

Polyetén, PELD, PELLD -type, based on recycled material. Coloured films contain colour pigment.

4. First Aid

Inhalation

In case of dust or smoke: Remove to fresh air.

Skin contact

In case of dust or smoke: Clean with soap and water

Eye contact

In case of dust or smoke: Flush with large amounts of water

Ingestion

-

5. Emergency action in case of fire

Put out with powder, carbonic acid or water.

A free laying film is easily flammable, quick spreading. Melted burning drops can speed up the spreading. When uncontrolled burning, as in the case of fire, carbonmonoxide, carbondioxide, water and combustion products of varying composition appears.

6. Spillage

Stop source of spill and notify responsible authorities. Sweep up spilled material and place in suitable container for recycling or deposition.

7. Storage and handling

Do not store near heat or flame.

8. Personal protective equipment and actions

Not needed

9. Physico-chemical properties

General description (form, colour, smell, viscosity etc)

Thin or medium-thin film, transparent or coloured, no smell

Boiling point ----- °C	Melt.point 110 - 130 °C	Density kg/m3	Solubility in organic solv.
Flach point 320 °C	Ignition temp 350 °C	920 - 990	-----
Vapour pressure at temp. -----	pH in concentrate -----		Solubility in water 0 % at 23 °C
Specific properties or risks -----			

10. Stability and reactivity

The material is stable, no hazardous polymerization or decomposition will occur.

11. Toxicological information

No wellknown biological effects. Polyéthylène is breaking down in heat and UV-radiation, for ex. sunlight.

Specific actions

Not needed. If smoke or dust is generated in processing or handling, provide good ventilation.

12. Ecological information

The material is recyclable. At complete burning only carbondioxide and water appears.

13. Disposal Considerations

Place in suitable container for recycling or deposition

14. Transportation information

UN IMDG ADR/RID/ADR-S/RID-S(road, rail) DGR (air)
No classification

15. Regulatory information

16. Other information

Labelling/markung

Others

The information given here is given in good faith, and from our knowledge at the date of issue. This sheet doesn't exempt the user from knowing and applying all the relevant regulations, and from taking all the relevant safety precautions
